

General Evaluator

Today, I am your General Evaluator.

My job is to evaluate everything happens during the meeting and to facilitate the feedback portion of our meeting.

The purpose of this role is for all of us to learn how to improve meetings - not just our club meetings, but meetings in general. This will help improve the quality and flow of future meetings.

I will be taking notes throughout the entire meeting as to how things went.

As General Evaluator, I will call for functionary reports, evaluate the speech evaluations, provide my overall impressions of our meeting and how we might improve, and reveal tonight's awards recipients.
